PROFESSIONAL SUMMARY

Computer Science Engineering graduate with a UI/UX Design certification and basic, hands-on practical knowledge of Figma, wireframing, and user flows. Foundational understanding of color theory, color palette selection, typography, layout principles, and visual hierarchy, applied through personal and academic web/UI projects. Working knowledge of Adobe Photoshop, HTML, and CSS. Brings two years of professional experience as a Lecturer, with strong communication, requirement understanding, cross-functional collaboration, and feedback-driven improvement skills. Eager to grow into a UI/UX Designer role by building on this foundation in a real-world, fast-paced design environment.

UI/UX DESIGN

- Figma, Wireframing, User Flows – Basic
- Color Theory, Color Palettes, Typography – Basic
- Layout & Visual Hierarchy, User-Centered Design – Basic
- Responsive & Mobile-First Design – Basic

DESIGN TOOLS & TECHNICAL SKILLS

- Design Tools: Figma, Adobe Photoshop
- Technical: HTML, CSS, Python, Java, Visual Studio Code, Android Studio, PyCharm

RELEVANT PROJECTS

College Management System (SRIPC Website) 2026

- Web platform presenting college information/services, built with React.js and Tailwind CSS; worked on frontend structure, layout, and responsive sections
- Applied basic UI planning in Figma along with typography, color selection, and visual hierarchy for a user-friendly interface

Library Management System 2026

- Web app (HTML, CSS, JavaScript, Bootstrap, PHP, MySQL) for managing books, members, transactions, and reports
- Focused on the frontend/UI: usability-oriented layout, navigation, and clear information presentation

WORK EXPERIENCE

Lecturer Jun 2024 – May 2026

Sri Ranganathar Institute of Polytechnic College

- Delivered technical concepts clearly to student audiences, strengthening communication and presentation skills relevant to design reviews and stakeholder discussions
- Understood and translated course requirements into structured lesson plans and materials, mirroring requirement-clarification skills needed when working with product and development teams
- Mentored and guided students individually and in groups, actively receiving and implementing feedback to improve teaching materials

EDUCATION

Bachelor of Engineering, Computer Science Engineering 2020 – 2024

Sri Ranganathar Institute of Engineering and Technology, Coimbatore | CGPA: 70.9%

CERTIFICATIONS

- UI & UX Design
- Full Stack Development with Python Programming — GUVI
- Programming in Java — NPTEL | AI for India 2.0 — GUVI | Introduction to Cloud Computing

INTERNSHIPS

- Python Programming Internship — One Data Solutions (May–Jul 2023) | Java Programming Internship — Refinement Software Solutions Pvt Ltd (Mar 2022)
